FOR IMMEDIATE RELEASE

Juan Delgado Joins Polymer Options as Commercial Manager for Mexico and Border Region

Houston, TX – Juan Delgado has joined Polymer Options as Commercial Manager for Mexico and Border Region. Delgado brings extensive experience in manufacturing operations, color technology, and engineering plastics quality control to his new position, where he is helping to lead growth initiatives in Mexico and Latin America. Before joining Polymer Options, he served as materials, color, and quality assurance manager for GE Plastics in Tampico, Mexico, as well as operations manager for GE Advanced Materials and GE NIM Plastics.

Polymer Options specializes in providing quality material ranging from prime resins to custom compounds to high-performance recycled content compounds. Products can be tailored to meet specific customer needs, from custom colors to custom blends. Polymer Options is an authorized distributor of Kumho prime resins including ABS, HIPS, SAN, and other engineering-grade products, and an authorized sales agent for LTL Compounders.

For more information about Polymer Options, visit www.polymeroptions.com or call 888-989-9069.
